## A NATION HALF BLIND IS POSSIBLE

Oculists and Optometrists have been notified that a serious shortage in lens grinders exists on account of the war.

There is no substitute for lenses. Without the grinders there can be no lenses, and without lenses we would shortly be a nation half blind.

If the shortage grows to any extent delays will be serious, if indeed the work can be done at all except for those who are engaged in the work necessary to the maintenance of the national interests during the present war emergency.

If you are in need of glasses do not delay or you may be unable to get them at all.

## Would You Marry This Man?

He had struggled from earliest youth to keep his mother and himself in comfort. He had no time to acquire an education, but through inventions had accumulated a fortune. Then he met Kate Bates, who had run away from the farm to teach school. He courted her—she loved him. On Sunday he would ask her, but in the meantime he wrote a letter that showed clearly his lack of education.

What did Kate do? What would you have done? Gene Stratton-Porter has never before woven so sweet a story of love, so intense a struggle against circumstances, so great and big a story of self-sacrifice. You must read "A Daughter of the Land"—one of the big books of the season.
